

15th ANNUAL MEETING OF THE COMMITTEE OF BANKING SUPERVISORS OF WEST AND CENTRAL AFRICA

(Yaounde, 5 and 6 August 2010)

Managing the CBSWCA Website

During its 12th Annual Meeting held in Libreville in November 2006, the Committee of Banking Supervisors of West and Central Africa (CBSWCA) revealed the creation of a Website for the Committee under its programme of activity.

After accomplishing this task, the Secretariat General of COBAC notified all the jurisdictions members of the possibility to access this site, in its trial version, at the address, <http://www.csbaoc.org>

In the same light, members of the Committee were encouraged to consult it and to make known their observations regarding the structure of this site, its presentation, its projected contents, its accessibility, its user-friendliness, etc. Similarly, they were urged to enrich the various columns made available, namely those dealing with their respective jurisdictions.

As of now, the site is operational in its final version and provides a forum for members. However, some of its sections do not yet carry any information, due to the failure by certain members to channel information relevant to its regular update.

This mostly concerns news of the Committee, that of the various jurisdictions members, of the banking sector as well as that of the Basel Committee, publications of CBSWCA and its periodic reviews, presentation of members, reviews and press releases, etc.

It is therefore crucial for each of the jurisdictions members to communicate this information to feed the Committee Website.
